

## **EDUCATION REPORT**

*You are quite practical, which is why you tend to assess any situation in this manner only. You have the necessary consciousness and eligibility to grasp knowledge. You develop interest in knowledge which has practical information to offer. You will be counted among the intelligent students and with the help of your sharp intellect and logical reasoning abilities, you will pass difficult exams with flying colours. You will possess great wisdom from your childhood and observe and learn from other human beings. Your memory power will be quite strong and you may distinctly remember each and every activity of your past for a long time. This will also benefit your studies and you will touch great heights educationally. But refrain yourself from maintaining an overtly practical attitude.*
